Winchester Action on Climate Change Ltd. Registered charity no. 1150754

## Come to Winchester Clean Air Day

and learn more about the relationship between transport, air pollution and health in Winchester, get involved and make your views known.

### Programme at St Peter's Pastoral Centre

**3.30 Refreshments, displays incl. posters by St Bede's school pupils**

#### **4.00 Speakers**

- Councillor Jan Warwick, Winchester City and Hampshire County Councils
- The health impacts of air pollution, by Dr Matt Loxham\*
- Facts about air quality in Winchester and what might be done

#### **4.45 Workshops and activities run by partners, including:**

- Winchester Air Quality Management Plan 2017: what is still to be done?
- Audit of the barriers to walking, starting with North Walls
- Workshop on the role of health professionals on air pollution
- Partners planning activities such as using air monitors; canvassing views of public, cycling opportunities and barriers. Details at [WinACC.org.uk](http://WinACC.org.uk).

#### **5.30 Closing session to identify next steps, with a glass of wine.**

\*Dr Matthew Loxham is a Biotechnology and Biological Sciences Research Council Future Leader Fellow at the Academic Unit of Clinical and Experimental Sciences in the Medicine Faculty of the University of Southampton. His major research interest is the link between the chemistry and the biological effects of particulate matter.

Winchester City Council hopes to do extra air monitoring and have a "No Idling" campaign throughout the day.

Free (voluntary collection on the day).

Likely to be popular so secure your place by booking at [transport@winacc.org.uk](mailto:transport@winacc.org.uk).
